PROFESSIONAL SUMMARY

Senior .NET Developer with 8 years of experience designing and building web applications and APIs with C#, .NET (Framework, Core, .NET 6/8/9) and ASP.NET MVC, complemented by Angular/React and TypeScript on the frontend, for clients in the financial, retail and entertainment sectors. 4 years of experience with Oracle databases, plus SQL Server, and 6 years working in agile teams (Scrum/Kanban).

Experience with Clean Architecture, CQRS and design patterns, REST/SOAP API integration, Entity Framework, continuous delivery with Azure DevOps and cloud services on Azure and AWS. I follow Clean Code and SOLID practices and use AI tools (Claude, Cursor) to speed up development and code refactoring.

TECHNICAL SKILLS

Backend	C#, .NET 9, .NET 8, .NET 6, .NET Core, .NET Framework, ASP.NET Core Web API, ASP.NET MVC, ASP.NET Web Forms, Entity Framework, LINQ, CQRS, Mediator, Clean Architecture, REST/SOAP APIs
Frontend	Angular (11 to 21), React, TypeScript, JavaScript, reusable and responsive components, HERO UI, Material UI
Databases	SQL Server, Oracle (PL/SQL – 4 years), Azure SQL, MySQL, PostgreSQL
Cloud & DevOps	Azure (DevOps, Functions, Blob Storage, Monitor), AWS (EKS, Lambda, API Gateway, CloudWatch, IAM), Docker, Kubernetes, ELK (Kibana), Jenkins, Git/GitFlow
Quality	xUnit, NUnit, Moq, SonarQube, Clean Code, SOLID
Architecture & Messaging	Microservices, RabbitMQ, Apache Kafka, Kong API Gateway
Other technologies	Java 11 (Spring Boot), Node.js, Python
Methodologies	Scrum, Kanban
Languages	Spanish (native), English (A2)
AI Tools	Claude (Anthropic) and Cursor AI — development assistance, code refactoring and automation of repetitive tasks

PROFESSIONAL EXPERIENCE

TOPStrategic · *Freelance* **Oct 2023 – Jun 2026**
Senior .NET Full-Stack Developer | .NET 8/9 · Angular · React · Oracle · Azure

- Built from scratch, in .NET 8/9 and Angular 21, the Finance, SKU pricing and Logistics/Finance operations systems for Oechsle and Promart Homecenter.
- Optimized the batch process that reconciled nationwide sales for Finance (about 1 million records), which ran overnight and took 2 to 4 hours: I redesigned it in .NET with asynchronous parallel batch processing (async/await, Task.WhenAll and SemaphoreSlim) and in-memory preloading of the codes to match, removing record-by-record queries; it now finishes in 6 to 10 minutes and runs during the day.
- Finance opened 3 to 4 tickets a day (up to 14 at month-end close) for wrong codes, costs and calculations, with no way to see where the error came from; I restructured the frontend with validations and per-record error tracing, and those tickets dropped drastically.
- Built REST services in .NET with JWT, communicating through Kafka and deployed on Docker/Kubernetes, integrated with Azure Functions and Blob Storage, and tested with xUnit/NUnit and Moq.

EVOL – Centro S.A. (Grupo Gloria) **Jan 2024 – Jun 2025**

Senior Software Engineer | .NET 6 · .NET Framework · Java 11 · Spring Boot · React · Oracle · AWS

- Maintained and refactored Grupo Gloria's Finance system in .NET 6 and .NET Framework (Clean Architecture, CQRS) and its Oracle PL/SQL packages.
- Integrated BCP, Interbank and Scotiabank into Grupo Gloria's Host to Host system, which processes bulk payments for payroll, suppliers and group transfers: payment batches are generated in SAP and sent to each bank through SOAP services.
- Migrated the payments platform from Windows Forms to a web application in React and .NET, with bulk payment selection and permission management; Finance went from about 30 minutes to a few minutes per payment run.
- Built REST APIs in Java 11 with Spring Boot, combining functional (Streams, Optional) and imperative programming, for the modules of the Gloria product packaging monitoring system, deployed on AWS EKS.
- Brought production-line packaging into a real-time dashboard by consuming APIs integrated with the plant PLCs, with log monitoring in ELK (Kibana).
- Worked on the "Gloriosa" promotion, broadcast nationwide, with AWS Lambda functions and Python automation scripts.

ADDITIONAL EXPERIENCE

- **Digitalia Tec | Senior .NET Backend Developer (Freelance) · Feb 2023 – Nov 2023 —** REST APIs in .NET Core and React modules for the Accounting area of Juntoz.com, with CQRS/Mediator and CI/CD on Azure DevOps.
- **Casino Atlantic City & Sport | System Senior Specialist .NET · Jul 2022 – Dec 2022 —** REST APIs in .NET Core, the "Finanzas Atlantic" app with ETL processes from SAP, SQL Server and Oracle, an API Gateway with Kong Enterprise, and leading a team of 4.
- **NTT Data Peru | Fullstack Developer .NET · Oct 2021 – Jul 2022 —** Built the CVT application in ASP.NET MVC for BCP's ARPAY tribe, integrated with Oracle and with CI/CD on Jenkins; also supported the tribe's teams.
- **Experis | Fullstack .NET & Angular · Jun 2021 – Sep 2021 —** Maintenance of Angular 11 and .NET Core/Entity Framework applications for Ferreyros business processes, with continuous delivery on Azure DevOps.
- **Xternal Technological | .NET, Angular, Java, Kotlin · Oct 2020 – Jun 2021 —** Led and built the Calidda GNV and Data Update apps; mobile apps in Kotlin/Swift.
- **Sigcomt | Backend Developer .NET · Oracle · Feb 2020 – Jun 2020 —** Built new modules (credit evaluation, card issuance, loan approval) and SOAP/REST services for Compartamos Financiera.
- **Everis Peru | Junior Software Developer .NET · Dec 2017 – Dec 2019 —** Development and support with ASP.NET Web Forms, Xamarin and Telerik components for BBVA, Entel and Pacífico.

EDUCATION & CERTIFICATIONS

Systems Engineering — Universidad Peruana de Ciencias Aplicadas (UPC), EPE Program (8th term), in progress

- Clean Architecture: Microservices with .NET 6 and RabbitMQ — Udemy (2022)
- ASP.NET Core Web Application (OOP, SOLID, MVC, EF Core, Bootstrap, jQuery) — Galaxy Training Perú
- Web Application Angular 11 — Galaxy Training Perú (2021)
- REST Services .NET 5 — Galaxy Training Perú (2021)
- Azure DevOps Fundamentals for Beginners (2026)
- Git: Expert (GitHub and GitLab) — Udemy (2021)
- Scrum Fundamentals Certified — VMEdu Inc. (2020)
- Clean Code (2026)
- Microservices Security (2026)
- Mastering the Security Code Review (2026)
